

starts at 2:30pm

[Main Deck] computers, section W, people, Captain. { - }
talk to Captain { we'll arrive at port in 1/2 hr; maybe double-check that there's
no problems } { teams take 1 minute each }

30 minutes
by Anastasia Trombly

talk to Captain
 { the fire sprayer should be in use }
 { the explant is in main deck }
 take fire sprayer { not "sprayer" }
 spray fire { called by Capt (e. e. talk to Captain
 { something is wrong - anti-gravity device } ...
 e. d. [Engine Room]
 device, toolbox
 open toolbox { search screen, 22 series, take of
 x device { need glue? take super glue }
 "give the device" (type this exactly)

before starting to implement the following requirements, please consider that the Authorize.Net payment form
 and receipt page are provided by the Authorize.Net system and can be customized only in certain ways. The
 system has been designed to appeal to the widest variety of merchants as is possible. A list of what you can
 change about the Authorize.Net payment form and receipt page is found in the section entitled "Edit
 configuration" later in this guide.

You must have a moderate understanding of HTML in order to fully exploit the features of Authorize.Net.
 Although it is true that the following snippets of HTML code can be copied and pasted directly into
 a web site and it would "work," it is not likely that all of the specific needs you have with your web site will be
 met simply by copying and pasting the code. Merchants that are unable to achieve the custom look and feel
 they want for their own should consult with a local internet web design/programmer for assistance.

How to link a web site to the Authorize.Net WebLink secure payment form
