

[The Bridge]

- need all nixi ones tested, will be any about.
- be on lookout for DARWIN, who may have tampered w/ ADRIFT-O-Sweep.
- hence, Holographic Info Asst. (press HIA on panel)
- when all is fixed, contact me thru Drift-O-Com; take next admin accumulator w/ y.
- beamed on board the Beta-Drifter

The ADRIFT Project
- Classified
by mystery (Data Core) A4

Captain's chair, panels, ADRIFT-O-left S, vent w/ writing D.
i {battery (not charged)}
x chain {gravity suit (in ADRIFT purple)} push hia

ask him abt suit, adult-o-sweep (vacuum, deposits items in ADRIFT-O-Dump, transfers items via remote)
abt hia, beta-drifter, darwin (superior to all fleshy creatures), robot
abt charger (powers remote for sweep, located in Central Communications Core)
abt core (primary com ctr for Beta-D. DARWIN destroyed it)
abt drift-o-com (in core, cant be repaired aboard ship; will have to be replaced on return home)
abt beta-testing; me, screen, panel (rooms w/ a panel can summon me. "press HIA")

(DARWIN enters) ask him abt DARWIN (impressed by his transducer)
x down. x sign. read sign (OPEN DOOR to East Bridge) ask him abt adult-o-left (not left)
open door. s. [The ADRIFT-O-left] N, SW, S, SE; lever (up); panel

s. [Central Communications Core] N, S; panels, wires, Drift-O-Com, charger in ceiling, Sweep;
DARWIN. x charger. stand on drift-o-com. put battery in charger. (mistakenly if you put battery in charger without staying on com)

s [The Laboratory] tube (hole top, tray botm), sign, btn, box w/ writing, vent, panel.
read sign (+ bomb must not be too small or too large; add red-molecule in box before adding Sphere; twist to activate bomb). x box (funnel, ~~box~~) red box (in 500, 863 explode when adding)

ask him abt bomb/drift-o-sphere, adult-o-dump (in lower deck; hatch opened periodically)
// left. push him -> [ADRIFT-O-left] S. -> [The Corridor] vent, N/S

S -> [ADRIFT-O-Dump] trash, broken panel, lever botm. x trash {chive (thick green)}
- need up to take stink. // se from upper left -> [Captain's Quarters] panel, poster, window, bed
pedestal, log, divider, toilet, basin, wardrobe, vent. / x poster (pic of capt in purple TNH suit)

- opening. read log. (DARWIN = Detached ADRIFT Robot with Internal Navigation, from Robots-R-Us)
(they added intelligence bonuses to DARWIN) (malfr at lunch) DARWIN accessed main computer
(thru maintenance terminal) (will have to disable log before DARWIN is able to hack into it)

ask him abt captain, mystery, adult, log, stairs, gun, remote control (in Objectorium, kept locked)
x basin (drain; something stuck in there) open wardrobe (Drift-O-sphere, piece of gun)
(mechan sized)

ask him abt objectorium (test drift behaviour)
[Objectorium] cabinet, sofa, table, panel, window, vent, black box
blue sphere & coffee cup, bubbles (large)
small yellow sphere (left)
Drift-O-Dump first string
x ~~explode~~ explode when mixed with food sphere
chew gum
put gum on string
put string in drain
-> solve key.
Prohibition (near sweep)
Et suchs existis from you
