"Sorry about the door, Malcolm, ... Close door."

"Let's just hope he doesn't find the gift." (illegal gambling)

"It'll be okay unless somebody tips him off about stowing Annie Oakley under the 2d front by the elephant tent -"

Chuckles removes mask & tosses globe out.

Put Ticket Under Front: panel opens.

← don't need eyeballs
thinks you're a "First of May" / "lot looper"

Ask Harry

Chuckles: "A very accomplished performer, takes a lot of pride in his craft. Until..."

Jenny: "She...er, they...uh, whatever it is - bizarre is all I can say.
You'd swear they were two different people."

Andrew: "Andrew's always considered Jenny a thorn in his side - of course, Jenny's trying to keep him on the straight & narrow. Which is cherry pie, considering this is the circus life & all."

Tina: "Well, she's tried various diets, but then Mr. Murrett orders on about about to increase the frequency of her feedings."

Murrett: "Well I can tell you this is one circus that's headed for the barn.
^{bluntly} It's that doggone Mr. Murrett & his vainglorious dreams. They're not paying out for him, & the more he pats the squeeze on all of us, the more dangerous this lot becomes."

Rimshaw: "Rimshaw-the Incomparable? Hurrumph. Don't waste your money."

Thumb: "A very popular attraction, small but charismatic"

Monday: "He used to sell Amway. Then he joined on here as a Monday Man, which is where he got his name. But that was before Murrett, of course."

Malcolm: "I really can't say" _____

Hannibal: "Very funny. Asking someone in my condition to describe an elephant's"

Sunglasses

Harry: shows scar which engulfs both eye sockets. (takes off sunglasses)

"Nimrod did this to me. He refuses the whip, unlike Elsie, who is controlled only by the whip."

Gottfried: "Nothing but a glory hog, & always just one step ahead of the ASPCA"

Harry

Chelsea: "But you already asked me about her, right?" YES
"Did not. Er, um... Well, I guess I didn't answer that question before. All I can say is that I haven't seen the kid all evening."

Detective: _____

Circus: "I've given my opinion"

Gloria: _____

Genovese: _____

Extract: _____

Tematite: _____

Crae: _____

Mahler: "Mahler? I used to work with him. You know you could practically put him to sleep with soft music. That's how he got his name. Along with his mean streak too, of course. In fact, I used to play the violin for him at night after all the tourists would go home. That was the old days."

Monce: _____

Grift: _____

Tuff: _____

Nimrod: "I would rather not talk any further about my past life with the lions."

Eddie Smaldore: "That's Chuckler's real name"

Roustabout: "Yea, sad story. Just another guy who fell out the social safety net, if you will, & landed in the circus. And not on his feet either. So Mr. Murrah overworks him, has him living in a cage. That's the life here, that's the circus life for most."
