* Objects drawn with these commands have an upper-left origin.

This suits the front-to-back loading of Print Head Registers and the right-to-left card movement during print cycles. As noted in the figure, an object mirrored in both axis in the data sent to the buffer would print normally on the card.

Figure 1-5
Data Sent versus Card Mapping

Rebooter(n)?
 - Skynet, photos, exit Z
 Simon, thick cloud,
 sitwa key, paper,
 Brown swap.

put cloth in angular salt
 W: (kitchen - cabinets, counter,
 table, back door N, exit S
 - door, knife, fridge, magnet,
 doorknob egg

put pillow in serpentine
 N. (Bedroom) war, bed, dresser,
 pillow sheets vase
 doors W & W (Car)
