x table (steady) look under table (legs shifting nervously)

ask Mackenzie abt himself - working/being in Olympia I'm a genetic designer
abt Olympia - nice enough. Wentons bec of mtr. Working on solutions using plants.
abt here - You're from the place. I know I k all abt g. It's not my job, but it's che.
abt job - plants & pollination, pollen to change & slow wind. ~~to do papers~~
Unlikely to work, whatever the papers might think

g. Our company invented Oxyalg, so we're pretty important.

g. Is it the lab? I had a lab put in the basement. But I didn't poison her ^{chemicals!}
abt woman (His boy only started 2 yrs ago, when crime reported & he was put on ship
abt language (never learnt English. My wife said it made it fairer. think here)
She didn't understand abt I did, but I didn't understand her documents.)
abt wife (She worked as a translator) - Is this going to hurt her? like before?

man, no.

ask him abt home - Got it thru work, all employees got a plot. We've been in Olympia
10 yrs now. I like it. I think I have did too

abt Oxyalg (Yk. 3/4 of Mans know. It's growing in the atmosphere up there)

abt Mans. (I love my planet. News would love it. No overworking, unemployed)

abt crime (It was poison, wasn't it? That's what they sd. She must have got in!)

abt lab (newly. I haven't seen it yet. Honest, I didn't take anything)

abt Compay (Alg Corp. Nice compay. Only compay.)
