3 puzzles, explore!; keywords may be comments; story (not game)
meta comments are supported; Look works differently (?)

- > State kind/pole; tones: partly, dream, dete, saturator pole
- > pole ("increase in mood" (senses you) - my pole/stypper pole)
- > Ego (check computer: hunger, exhaustion, libido => refresh, unphys, FOMO)
- > x decks (computer, severance papers, keypad, check stubs, stltpr end)
- > turn on computer (?) from on compute (?)
- > computer (browser, email client, study notes)
- > study notes { 1) check email for colorbars, 2) file severance papers.
3) guess what, Rodyn? you've stolen a surprise! 4) Brian, Laurie Lake, TPM?
- > Brian (did him a lot)
- > Laurie Lake (you're Brian this) > Rodyn (you)
- > surprise (originally to receive good jobs; now a wearable that changes the wearer's mood.
Users analyze the color {hue - emotion, saturation - intensity, value - complexity})
- > i {really dress}
