[High Plains] as Emily; sign, Austin
x sign (Alamogordo 23; post tested)
Fly → [Above the Plains] rd runs W, into E
W → [Above the Rd] N/S
ask Austin abt road/chain/here/Alamogordo.
(Al. is in NM, where Aunt Nina's salt crystal mined.
ask A abt salt crystal (bacteria able to preserve themselves;
where they affected by high doses of radiation)
ask E abt Alamogordo (near Trinity site; bomb)
ask Tinty / Shinn in air

Fog (some of it reveals outline of structure)
Close doors (doesn't work) C. hit door. (Davis rejected)
x building. in. (Main asks Sci Master Estima if procedure should be halted.
No. There are robots. Seal the room. Main pulls lever downwards.
Gives partition between them
[PART ONE] Emily will handle robots; you take care/noise.
[Entry Cor] goes N, bubble over panel, needle-arms about jobs E!
break bubble, break pad. (retreat) C. in. plant panel. (alarm off).
non-incessant room 1st level. Shut down transport tubes! Continue: open containment chamber!
move horiz lead from left to right.

[PART TWO] [Entry Cor] n → [T Junction] pulls E/W/S, cylinder tube
w → [West Cor] dead end; E → [East Cor] achy S
s → [Hanger] vehicle in pipes
Fly [At the top of The Hanger] platform, blue touchplate
touch touchplate (ceiling opens)
// S of W Cor → robots + machine the size of concession stand.
x gizmos (newest + older) leys → pointable + squeezable
point gizmos at sign. squeeze it (bought flash!) // blast machine (of robots). Z.Z.Z.!

S [Security Robot Headquarters] sound + vibration, controller, robots
 x controller (doors, also fun fun). open doors.
 in [Inside the Robot Fabricator] handle protrusion on floor
 entry, n. pull arches. in. (blocky robots below; loud!; 5 stories down)
 d. { Extruders reached ducty room. Reactive transport tubes + send Simian hunters after them!
 Open transfer chamber }

[PART THREE] [Above the Drill Room] Huge apparatus N,  hole, pile of crystals S, robots
 x robots (like work ants) x crystals (two piles: bricks + remnants) x pit (very deep.)

d. [The Drill Rm] (Austin joining) archway W.
 x robots { handlers from hole; polystyrene; cutters; sorters } (too loud to talk to each other)

W [Deep Corridor] bottom of N/S niche, narrow at top i pipes. Archway ~~slams~~ shot!
 Asian woman in bodysuit N (Fire), white man in purple suit (Rain)

Also: They are your parents! Claire + Scott Colborn! 1) mom! It's so!
 as Emily [Deep Cor (joining with)]

can't quite win vs. mom + Dad
 (fog useless; can't hit directly;
 challenges on mom + Dad's
 attacks accumulate → You have fallen.

Stop experiment! Subdue/capture Esraa + assts.

Then meet Mom & Dad in hangar.

(They'll rescue Thad, melt crystals, + prep vehicle.)
 { Maev begins 'extraction'; I hear sally outside the door. }

[PART FOUR] [Outside the Lab Door]

door of polymer; tube opposite
 N

as Austin hit door? no. rip door? (yes, hole underneath)
 c. enter door { it slams shut as Austin follows you } [Esraa's Lab]
