

Base Rm - take rock ("Find the elements. Big tent here")

o {work by Egan, needles, dress, ring, slippers}

out → Shore of an Underground lake (mirror, bell)

hit bell & rock (gondola, gondolier, pole)

into gondola (images of faces)

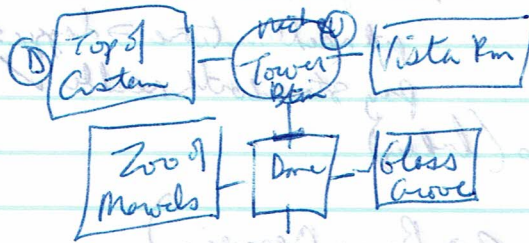

gondolier, n → North Shore (steps, lake, bells, metal plate)

(take metal plate with summon gondola again)

2 → Dore of Bishu light (door, silver substance, lens, light, mirrors, crystal, glass)

- light, lightlike

- LOOK THROUGH GLASS AT 2

~~the~~ tube (vellum scroll) - eplage tube. Look THROUGH GLASS AT scroll

Besides 4 elements, there is a Fifth → must have other 4 first, gives power to PCY.

statue of woman, concave mirror, mantle

zoo - tiny elephant, giant mouse, capes, houghless (smaller end up)

eplage rock! ? to size of head

eplage lens (to size of face)

needle (size of hairpin)

glass grove - trees, leaves, dragon - figures

stem earth 1 to 5, eye is butter, belly is fire & space

apple of metal on tree (at 3) apple dore → Bieky

key is glass!

1 (wood), 2 (obsidian), 3 (glass)

4 (silver), 5 (roy)

analysis of the  
(S. 1000)

In the Cistern - pulley mechanism (chain / hook)  
Top of Cistern  
pantings (New World, native village, ocean, trade ships, wrecks, pirate ships)

Victor Rm - Paris, Rome, London, village, linen (full, sceptic) divider, ladies, dog's  
floor & stones / pope, cardinals

ball-house, mill, church, grave, stone, skeleton  
priest, wife, birds, Marie  
master, houseless, bats

huge paving stone 2' (put needle in wire → dog's size)  
paving stone with needle ✓

→ Hollow of Unbroken Darkness (ladder)

Tower, mid (A → Skeletons + Apparatus, B → Brass Menagerie)

nude in S (man, key, naked sturdy leg  
placards (one copying is loose)  
pug shot & needle → hole (grating)

Skeletons & Apparatus - Staircase (folded d, boiler of water, over, btn,  
circular palm-sized slot, light)

put glass in slot, put tube in over, push btn (ow! bum)  
push button & needle? (xl is tall) (xl is okay)

Brass Menagerie (windows, pedestals - bird, frogs, human dancer)

crank of Damascus steel - shaft in floor  
lever (0, 3)  
wooden octahedron

bird - wings, beak, eye, crest  
1 bit of wings (leather) missing from clip

frogs - eyes, throat, koi, lilies

octahedron - herons, owls, goatsuckers, peacocks, sparrows, doves, bees, butterflies,  
clouds, sun

dancers - lady in copper shirt, man in silver, ruffe  
turn crank (notch?)

set lever to 1, turn crank → bird flaps wings.

3 → dancers dance

tube can be engaged to "longer than a walking stick"

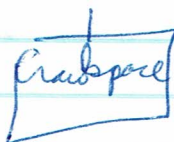

Hollow (touch for → cube? (perfect cube - nodes, grubs, seeds new-growth, "earth")

ring → bracelet → almost caught encircle your hand

put ring on hole → isosahedron of glass (fishes, coral, etc.)  
enlarge vellum til enormous, put vellum on wings. turn crank. take octahedron

Shadows. Put lens in slot. Put (stick) tube in over, push button with needle  
High Room. {tetrahedron}

gold key is too large for grating

x machinery  
(celestial clockwork)

put yanukle

metal tetrahedron, fire

wood octahedron, air

glass isosahedron, water

stone? cube, earth

metal dodecahedron, stars/time

turn ball to wood. Put ball in hole → ~~gears stop!~~  
gears stop!

Tower of Stars (moon, constellations,  
light, dodecahedron)

l in mirror (from left) → bed
