GRIGORI KORNILOV

hello who are you
 push

ask Piotr about dead people (empty blew up, lightning at night, doddy carried in cot upspout hole)

ask Piotr about daddy (he knows abt radio)

where are you (I am in Moscow)

fix radio. yes. TDSOTM73.

- find a round green thing, a resistor. Take it off.
 The radio should work even without it, but not at full power.

thank Piotr. bye.

- take resistor.

- ~~turn on radio~~ 'I asked the spouse'

- 'I was a moon watch. Tell me my name!'

- you are ANTON PUNILOV (I didn't want to become a astronaut)

- tried to stop launch of missiles
 Spresky: you + Pavel would have been missed

H3TAN

- Grigori salvaged a Teknobot; If little Pavel was here, he could help
- Pavel is a mouse / misheard - he must be huge, in station
- where is Pavel (I hid him)
- look under phase: TPATG0067
- x me: Andrei Repnikov (3rd child of 2nd bro of presumed aunt of political advisor of mayor of Sverdlovsk)

venting pump, ^{main} switchboard, analog complex, central processing unit, vol
m.e. Vladimir Prokhorin

talk to radio. misheard (snells of command)
small command. open panel.

2. (Teknobot) (tail, back, 3 pairs of wheels, all) ^{stake}
hit mouse + hammer. take mouse - wake mouse.

pull tail → it turns
take it, put it on hatch → storage device revealed. (i.D.I. bot)
talk to host. (Teknobot doesn't like looking mechanism)
stop launch. (controls looked by eye, eg. me. Shut me down to access the column)
shut down (there's a password / protocol)
