ask helmsli abt ribex (inside) { I had the honour of plucking the present polyp that grew from his grave & planting it in
the hill last summer } abt polyp - { Once it attains consciousness, it remains viable for another day or two,
the ORGAN must be completed or we repeat cycle (new door, new zombie, etc) until we attain the ASCENSION.

Abt undead: bring abt alignment; a candidate may be attached to Helle's neuromatrix.
abt neuromatrix (align their neuromatrix with order's founder, Helle.
The input only lasts a day at most, so alignment only attempted while Throne is within transmission range.)

abt neuromatrix (brush upon brain transmigration theory. Did you skip lessons at monastery?
Neuromatrix is config of psychic energy in physical substrate of brain. Farnes's brain was made receptive
by being undead.) abt town. (Orlone is just down road to South; peasants are superstition & ugly in mobs.)

& find land)

p strangers prying into affairs of the Siblinghood.) abt Throne (the physical manifestation of Helle,
the heavenly body that traces ellipses in the ether. When near, aligned can feel her presence)
