/ data-disk, levels; heavy door (locked) - unlock door (e id ring).

n → [Testing Chamber] window, system light (red = on)

x john (take jewel read jewel → error 6192: subj has not purified properly;
8151 → system suffers serious power loss; body can be stored externally in a storage
crystal. // x object (it is yr other self!))

/ in room (get jewel (not take)) // get rib (not take) get jewel (with rib)

// (causing the jewel near the screen gives it power) // put jewel on screen (rib-beams
too hot to carry!)

put jewel on screen. put news-disk in slot. (mass disappearance; 2 days after, 1/2 pop missing;
air strikes ineffective on testing chamber; volunteer army sent to temple (news-disk lost?))

put data-disk in screen. (beam moved, no confirmation signal; can't get the beam to lock,
y says 'I'm in future; system doesn't know I arrived; locked of confinement; Colin +
other techs vanished (into past + future); y must shut off the power.

- y remember in journal smth abt power system:
power grid for the testing chamber runs through the temple,
behind a panel, hidden in wall of Great Hall is power enough to destroy
a small planet // Take jewel. take it

// x passed (locked). unlock panel (with key) x power grid
show jewel at girl. (jewel vapourised; power off) // listen @ hallway (quiet).

[Darken Control Room] x even 7767 - Critical Power Failure
9923 - Subject Deletion Imminent

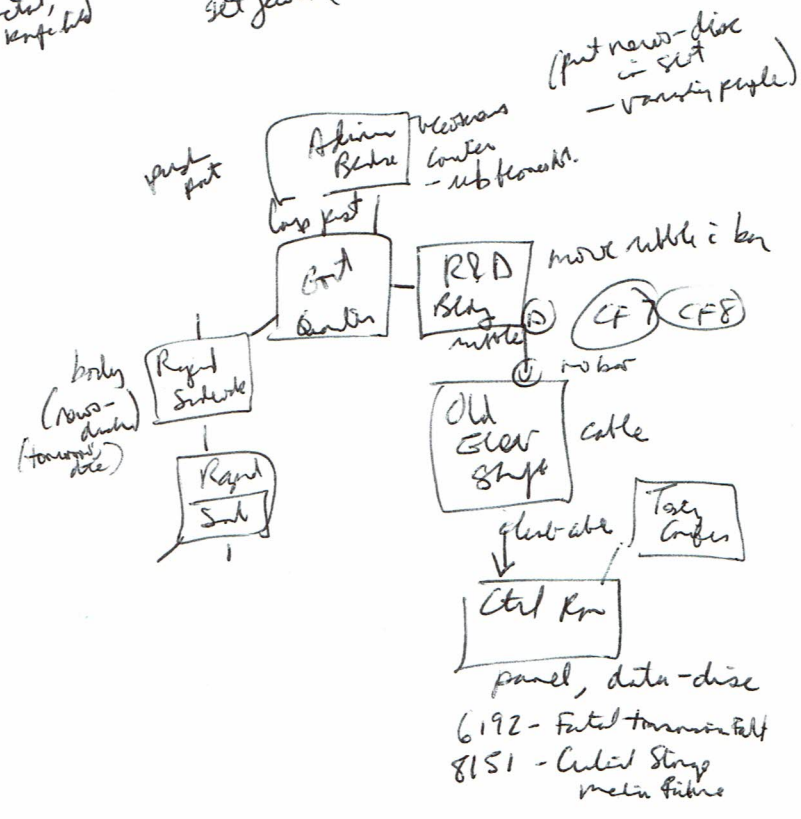

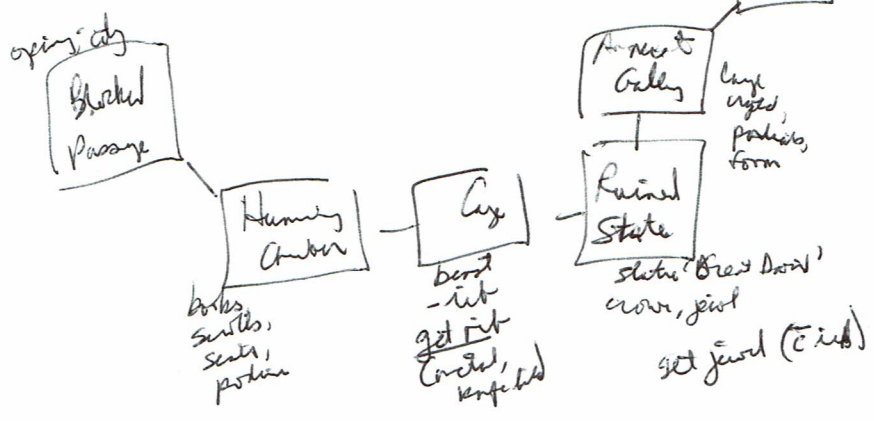

(read journal files to expand on these) pull lever → BEAM LOCKED

open door. N (light is green, test open, ty can see thru yourself, a voice: "John,
can y hear me...") / open eyes. Y didn't appear there + y started to fade here

Colin is questioning y; yr memories of future jobs. Take it falls. Y don't remember
how you got it. (end)

1. Entry, overalls, get change founds
use get

PATHWAY TO DESTRUCTION

Ben had status Ben v2.0 cases
level - measure.

these are not the future
E no confusion
- everyone has particles to other areas
- need to shut off the power.
