(C) RUN SECURITY CHECK
```

"" CHECK COMPUTER SYSTEM... FAILURE. (contact yr f'ing admin)

(1) alien (in coffin)

x devices { 1st: gas bomb - close to coffin
2nd: glass wall - 5m from coffin
3rd: laser beams - 10m from coffin.

w (no, that's the secondary generator room, to be used if main power supply is out)

e (no, old emergency generator, to be used if 2nd gen fails; junk room)

take all { computer, btms, terminal, desk, TV, posters, coffin, devices, gas bomb, glass wall,
laser beams, chestnut-tee }

- x glass wall (describes bomb?)

search computer → (find & kill 'crackwork')

turn on terminal ⇒ ⇒ power 2nd power failure, coffin temp rising. Alien will wake at -40°F.

w → [Secondary generator room] generator.

turn generator on. search it. (form) read form - They asks where these screens were supposed to go?

note | search generator (2nd time!) → book. x book (1/2 pages missing. Push btn to send up to lab computer)

e. e. [Emergency generator room] crate. open crate (empty bottles of vodka, was for the generator.

{ Better find someone to change the power distribution of the batteries with the crate. Who needs a/c. }

x generator. (needs vodka)

x junk search junk { can now access the generator + find red book }

x red book (in Russian; no drawing)

turn on terminal (ends game)
