personal toilet attendant.

You feel a sting from your arm and turn to see a medical robot moving away after administering the antidote for The Disease.

A team of robot technicians step into the anteroom. They part their ranks, and a familiar figure comes bounding toward you! "Hi!" shouts Floyd, with uncontrolled enthusiasm. "Floyd feeling better now!" Smiling from ear to ear, he says, "Look what Floyd found!" He hands you a helicopter key, a reactor elevator card, and a paddle-ball set. "Maybe we can use them in the sequel..."

Your score would be 80 (out of 80 points). It is Day 3 of your adventure. Current Galactic Standard Time (adjusted to your local day-cycle) is 2802. This score gives you the rank of Galactic Overlord.
