

[Weigman crater] dish, base, ladder U, conduit to N6. {for the dish}

i {N7CP spousant} x spousant {has emergency detection indicator} x indicator

x me {Gwendolyn Starling, 42, foremost expert on Raster Astroonomy}

x base u [Up the ladder] cylinder 6m wide x cylinder. open hole {primary coil out of its slot}

put coil in slot {back online; ret to base} close hatch. d. {wind! blue energy! base flicker!

intercom dead} [N crater] N6 [Tsiolkovsky crater] e, in. (conduits SW & E)

{station approach, take shelter soon} in. [Command module] <sup>N, E, W</sup> joystick touchscreens, console,

Meredon's corpse. x corpse. push him. x console {running calculations very fast}

N [Power substation] power connector, links cables y to get generator in here & hook it up

before he dies. Also surge from signal fried everything

/e of CM → [Quarters] head is east, bunk. book on links' bunk.

take book, x it. (STORE REQUISITION INDEX; look up [x] in book)

/w of CM → [Hydroponics] tanks. w → [Storage] crates, generator, loader robot

parked in charging str. take generator (too heavy; push it) push generator E. g.

push generator north. connect generator to connector. turn on generator. {Sleep soon}

(Can't take links; I guess we're gonna live with dead bodies??)

/e Quarters: remove suit; e {take 5 in the head & feel better}

lie on my bunk. sleep. {flashed i M: energy of signal = Earth's total for 48 hrs.

(wake) {low rumble from power substa} wear suit. w. E

x generator {fuel gauge, actuator switch, fuel cylinder receptacle}

x gauge (02%; need new fuel cylinder) s. w. w. look up fuel in book (64810)

x robot. type 64810 on keypad {robot gets a crate} take crate. open it. take cylinder.

e. e. w. turn off generator. take old cylinder. put new cylinder in receptacle.

turn on generator. {is there a raster in storage so we can call for help?

- BL66P from CM console
- harp glissando from hydroponics}

C(AA): x console {2, 4, 6, 8, 10, ??} type 12  
x console {1, 2, 4, 8, 16, ??} type 32  
x console {2, 3, 5, 7, 11, 13, ??} type 17 (wrong?) type 19

ZAPP! → [Cave opening] S. Mendelson + hunk are here

ask hunk abt himself (fin. nervous. just hunk to leave sda system)

ask hunk abt myself (close without adjusted physiology, to survive in this environment)

ask hunk abt aliens (no name, comm via EM; we're microscopic physically & mentally)

ask hunk abt cave (in asteroid larger than Earth + billions of yrs in past)

{aliens: welcome. Two must return + one must stay } M wants to stay.

x mendelson {L agrees Earth needs M too, but M says he's more useful here; M goes S. }

S [Slowing passage] S [Rocky ledge] sphere {M says don't look in it }

ask hunk. ~ sphere {gift, to see future} say he should stay {say <sup>sure?</sup> yes / say no }

Say yes → hunk + you are back + M's body gone. Rescue team arrives ~~\*\*\*YOU HAVE WON\*\*~~

CREDITS. AMUSING { touch spec.  
look in lake or sphere  
Send distress signal to Earth  
ask L abt M when in garden? }

// @ Hydroponics: shimmering curtain in room

@ Slings: look up radio in book (? 8952) type 8952. open radio unit. take radio

x A. push button (noisy) open radio (w/ music) look up w/ in book (noisy)

// enter curtain → [In the gazebo] hunk to see, curtain.

see → [Garden] path w, not to gazebo, in, bush, rock, grass, birds

ask hunk abt hunk, ~ the other place. ~ curtain (where he's going) ~ forest (don't go for or look up lake)

~ lake (it shows truth) ~ Mendelson (He ended up in the other place) & {L seems to be curious}

w. [Forest path] see [Shoreline] lake. look in lake {I've got led ~~\*\*\*YOU HAVE WON\*\*~~ }  
(rust onto) or (beach lake)

@ Garden: x pillars {left pillar: x; right pillar: slot } i {robe, hang}

play hang @ Shoreline → {Omega appears} take omega. // put omega in slot

enter curtain [Daybreak] "hunk" is of Zendor, sentient dreams, M + L arrive,

rescue party arrives ~~\*\*\*YOU HAVE WON\*\*~~

// w of T center → [Gagarin crater] another dish, new core?

↳ [Up the ladder] open hatch. take coil. put coil in radio.

close radio push button. { much later, rescue team arrives & y're badly alive & the others remain dead } ~~the~~ YOUR MISSION DID NOT GO WELL ~~the~~.

// in at G center → [In the gazebo] // the coil in N dish is fried.
