- examine 1st tablet

These are ways but the Way is uncharted; / These are names but not nature in words. /

Nameless indeed is the see of creation / But things have within & shape has a name. //

The secret waits for the insight / Of eyes unclouded by long /

Those who are bound by desire / See only the outward container //

These two come paired but distinct / By their names / Of all things profound,

Say that their pairing is deepest, / The gate to the root of the world.

- examine 2nd tablet

30 spokes will converge / In the hub of a wheel; / But the use of the cart

Will depend on the part / Of the hub that is void. //

With a wall all around / A clay bowl is molded; / But the use of the bowl

Will depend on the part / Of the bowl that is void. //

Cut out windows & doors / In the house is the use; / But the use of the house

Will depend on the space / In the walls that is void. //

So advantage is had / From whatever is there; / But usefulness rises /

From whatever is not. //

- examine 3rd tablet

The softest of stuff in the world / Penetrates quickly the hardest;

Insubstantial, it enters / Where no room is. //

By the **I** k benefit / Of small do by quiet be; /

In all the world but few can k / Accomplish it apart from work,

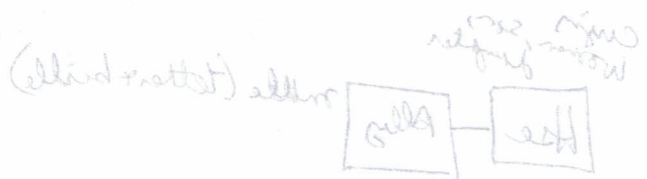

Instruction when no words are used.

- examine 4th tablet

The world may be known / Without lewdness; / The Way may be seen / Apart from windows.

The further you go; / The less you will know. //

Accordingly, the Wise Man / Knows without seeing, / Does without doing. //
