

mangled virtual war, "Best help" trophy / console ejects from other ship to trophy /

[Crash Site] take trophy. (reference photo of HMS Co-Dependence disappears into cyberspace.

- player needs assistance. x me (best help game feature) [gold trophy]

look in trophy (memories / success) (outside ship) → [Bridge of HMS Snark] approval rating display

is 97% (and 99%) (self-help stole 2nd controls (transport btn, help distributor btn,

reciprocal monitor) & <<(T)ransport>> <<(H)elp>> <<(F)eedback>>

Viewport: White walls. Wooden door. Glowing panel. / A hatch leads out.

f → unacceptable response time. (When he NNNN → T, then H)

t. (figure out how did by stuff?)
