Tuesday, July 13, 1954 (All-Star game at 1:30)

10:15am [bring New] nothing to take, eat, throw, use as weapons; patches, splinters, (free use) potted plant, dig dirt (Atomic Fireballs candy)

in [it's getting busy] [Office on Floor Fifty-One] window, desk, chair, drawer, view
Visitor is alien. on desk: sampler platter (scraps, scarf, meatball, carrot),
autogy photo of Joe DiMaggio; closed X-Pepper kit by window (Visitors to beg for socks)
give socks to creature (plasma is stinkier)

open kit (pod, propulsion unit, life support unit, instruction booklet, blank label)
read booklet (attach units + label to egg, then turn unit on; glue not used; how does V get into egg?)
take meatball (lightning reflexes)

V hops into egg; ← makes a faint comment. close pod.
